

8 March 2010

GARMAP 2010 UPDATE GUARANTEE

With the announcement and release of the *Garmap Africa Series 2010 – 1st Edition* DVD and associated maps, the following terms & conditions are applicable, effective 1 March 2010, with regards the eligibility for FREE Garmap map upgrades.

Garmap Southern Africa maps

- 1) New nüvi or zūmo devices supplied with preloaded *Garmap Southern Africa* maps (i.e. Streetmaps or Topo) that were **PURCHASED** on or after 1 January 2010 will be eligible for a free map upgrade to the equivalent new 2010.1 version. Furthermore, these devices will also be eligible for free upgrades for all future 2010 versions of the equivalent map. (Refer to note below regarding maps supplied on SD card)
- 2) Any **new** or **upgraded** *Garmap Southern Africa* map (i.e. Streetmaps, Topo or DEM) that was **PURCHASED** on or after 1 January 2010 will be eligible for a free map upgrade to the equivalent new 2010.1 version. Furthermore, these qualifying maps will also be eligible for free upgrades for all future 2010 versions of the equivalent map. (Refer to note below regarding maps supplied on SD card)
- 3) Devices or maps purchased last year (2009) or earlier, including those that were eligible for a free upgrade to the *Garmap Southern Africa 2009 – 2nd Edition* **UPDATE DO NOT** qualify for free 2010.1 upgrades. In these cases, an **upgrade** to the equivalent *Garmap Southern Africa 2010.1* map must be purchased – either via a *Coupon Code Upgrade DVD*, *Retail Pack DVD* or via the Garmap web site. Once a 2010.1 upgrade has been purchased, these maps will then be eligible for free upgrades for all future 2010 versions of the equivalent map. (Refer to note below regarding maps supplied on SD card)

Garmap East Africa Streetmaps V1

- 4) Notwithstanding the unchanged *Version* number (V1) of the *Garmap East Africa Streetmaps* map set, users should note that the POI data for this map set has been increased by over 36,000 items. As a result, the map size has increased from 16 MB to 30 MB in size. All existing users of this map set are therefore encouraged to install the latest data of the V1 map set, either by downloading the data or using the *Garmap 2010 - 1st Edition* DVD. Reloading the same version of a map does not carry any cost but an Internet connection is required. (Refer to note below regarding maps supplied on SD card)

GARMAP 2010 UPDATE GUARANTEE (cont.)

Garmap West Africa Streetmaps V1

- 5) New devices supplied with preloaded *Garmap Nigeria Streetmaps, Topo & Rec V3.1* maps that were **PURCHASED** on or after 1 January 2010 will be eligible for a free map upgrade to *Garmap West Africa Streetmaps V1*. (Refer to note below regarding maps supplied on SD card)
- 6) Any **new** or **upgraded** *Garmap Nigeria Streetmaps, Topo & Rec V3.1* map that was **PURCHASED** on or after 1 January 2010 will be eligible for a free upgrade to *Garmap West Africa Streetmaps V1*. (Refer to note below regarding maps supplied on SD card)

Garmap Indian Ocean Islands: Mauritius V1.1

- 7) This Garmap product has now been updated to **V1.1** and all existing users of any previous version of *Garmap Indian Ocean Islands* maps are eligible for a free upgrade to V1.1. (Refer to note below regarding maps supplied on SD card)

Note:

The above *Southern Africa* map upgrade offers expire upon the release of the *Garmap 2011 - 1st Edition* map sets. In the case of all other map sets, the upgrade offer as set out herein will expire upon release of updated *Versions* of the applicable map sets. These offers are only valid for original, legally acquired & licensed Garmap products with valid Product Serial Numbers (PSN). Our standard Terms & Conditions of Trade apply.

All Garmap products are licensed for use with a single Garmin GPS unit only.

Pre-programmed SD cards:

Pre-programmed SD cards are immediately ready to use. These cards contain the full map for a specific Garmap product. Simply unpack the card and insert it into your compatible Garmin GPS device. These maps do not need to be unlocked to your device which allows you to use the SD card in multiple devices however you will **not** have access to the mapping on your computer. Garmap maps in this format would need to be purchased separately when a new version is released i.e. SD cards **DO NOT** have any upgrade facility. For additional information in this regard, kindly refer to the ***Garmap Product Options & Benefits*** document.

Support:

Any queries with regards to the above can be directed to the ***Garmap Support Team*** on telephone no. 0861-427-646 or +27 11 251-9800.
